Protecting people and business

VIKING YOUSAFE™ HURRICANE SERIES

Work hard. Stay safe.

Made from waterproof, highly durable and breathable GORE-TEX® NARVIK™ material, the new generation of VIKING YouSafe™ Hurricane series advanced anti-exposure and immersion suits lets you work hard and stay safe under extreme maritime and offshore conditions.

Dual-approved, fitted and ergonomically enhanced, our suits are designed for constant wear performance across multiple tough work applications. Beyond excellent protection, they offer great comfort, flexibility and freedom of movement.

Both versions are supplied with 70N integrated buoyancy. With the option of further built-in inflatable buoyancy, a variety of lining choices and a wealth of features, the suits represent a major upgrade and a ideal replacement for several individual items of protective gear.

VIKING YouSafe™ Hurricane anti-exposure suits are a true favorite among ERRV, FRB and MOB crews, MES teams, navy operators, water police, lifeguards, coast guard services and other rugged maritime professionals.

A suit for all seasons

- Specifically designed for tough maritime and offshore work applications.
- Ergonomically enhanced fit, high quality finish and rugged visual appearance.
- Available with or without fully integrated inflatable buoyancy.
- SOLAS/MED and CE approved as anti-exposure and immersion suit.
- Waterproof and breathable GORE-TEX® NARVIK™ outer fabric with stretch-panels for great comfort and freedom of movement.
- Choice of detachable liner systems for 1 or 6 hour thermal protection against hypothermia, cold shock and condensation buildup. Ideal for use in both cold and warmer climatic conditions.
- Knees reinforced with DuPont™ Kevlar®.
- Gloves, hood and attached steel reinforced safety boots. Option for Neoprene boots or GORE-TEX® socks.
- Lifting becket, buddy line, emergency light and whistle.
- Host of design extras.

General features

Connect and extract

The lifting becket is useful when extracting the wearer from the water. The buddy line provides extra safety by letting crew members stay close together while waiting for evacuation. If not in use, the carabiners can be stored behind the name-tag.

Detachable hood

The suit comes with a detachable hood ensuring good insulation of the head when immersed in water. On deck, the hood offers protection against wind and spray. Attached to the suit with a strap, it can be stored in a pocket on the hip when not in use.

Pockets

Radio pocket, knife pocket and fleece hand-warmer pockets with drain holes and water repellent flaps. Additional storage pockets on sleeves and chest.

Cuffs

The 1 mm flexible watertight Neoprene cuffs ensure easy donning and optimal comfort during extended wear.

Zipper and collar

The advanced YKK Aquaseal® waterproof zipper allows easy donning and low maintenance. A perfect match for the zipper, the 1 mm Neoprene collar ensures a watertight seal and great comfort during extended wear.

Reinforcements

High-wear spots such as the knees and seat area are reinforced with extremely durable Dupont™ Kevlar®.

Light and whistle

Fully equipped with SOLAS approved light and whistle.

Stretch-panels

For better freedom of movement and an even less-bulky wear-experience, flexible Neoprene reinforced stretch-panels are integrated on the back of the knees and in the lumbar area.

With or without integrated buoyancy?

VIKING YouSafe™ Hurricane (PS4190)

Without integrated inflatable buoyancy
(for use with an approved lifejacket)

VIKING YouSafe™ Hurricane+ (PS4191)

With integrated inflatable buoyancy
(no lifejacket required)

Choice of features and options

Zippered-in thermal liner

A choice of zip-up thermal linings with integrated buoyancy foam and great moisture-management abilities make the suits ideal for both cold and warmer climates. Easily removed for cleaning and replacement.

Footwear

Available with steel reinforced safety boots, Neoprene boots or GORE-TEX® socks.

Gloves

3-finger 1 mm Neoprene gloves. Attached to the wrist by a strap and easily stored in slim fit sleeve pockets. Separate 5-finger Neoprene work gloves available.

Print on back

Name or company logo can be incorporated into the suit with custom heat sealed print and lettering on the back.

Name tags

Available with embroidered name tags (sleeve or chest) and an integrated configurable personal ID label for easy distribution.

Storage bag

Suits are delivered in a heavy duty storage bag. Built in transparent window for easy owner/user (name/size) identification.

Sizes and colours

Sizes: S, M, L, XL, XXL, XXXL + long and short version for an even better fit.

Yellow fabric with black reinforcements and pockets.

Red fabric with black reinforcements and pockets.

VIKING YOUSAFE™ HURRICANE SERIES

When it comes to safety - think VIKING

VIKING Life-Saving Equipment is a global market leader in maritime and offshore safety, providing and servicing safety and fire-fighting equipment for passenger and cargo ships, offshore installations, fishing vessels, the navy, fire departments and leisure yachts.

Founded in 1960, VIKING is a privately held corporation with its group headquarters located in Esbjerg, Denmark. Products are manufactured in Denmark, Norway, Bulgaria and Thailand.

VIKING offers a broad range of off-the-shelf and tailored safety solutions and systems certified in accordance with the latest requirements of the IMO, SOLAS, EU and USCG.

The product portfolio includes chute and slide-based marine and offshore evacuation systems, liferafts, lifejackets, anti-exposure, work and immersion suits, fire suits, aviation safety gear, lifeboat and rescue boat solutions and a complete range of life-saving appliances.

VIKING Shipowner and Offshore Safety Agreements offer uniquely customizable concepts that incorporate safety products, global servicing, single-source management and financing in a variety of fixed price structures.

With 2,000 employees worldwide, the unique VIKING network of branches, agents and 260 certified servicing stations makes VIKING a truly global provider in all significant markets.
