

1 l Drip Torch

Great operability for fast technical fire maneuvers

1 l Drip Torch

Great operability for fast technical fire maneuvers

The essential accessory for helitransported squads and control and analysis vehicles. A light tool that's highly useful for indirect attack and parallel operations such as backburns, burnouts, escape fires, hazard-reduction burning and the creation of safe zones.

Flexible use

The double-threaded cover design makes for compact transportation and quick assembly for use. Can be carried on the backpack belt.

Safety

Tank approved for fuel transportation. Burner with 360° return to prevent internal deflagration. Flow regulator valve.

Technical specifications

Weight not including handle	340 g
Weight including handle	460 g
Diameter	9 cm
Height	27 cm (closed)
Fuel	Blend for use: 2/3 diesel + 1/3 gasoline
