

drying cabinets for your work protection equipment

Be on the safe side: drying cabinets with valve controlled air supply provide for a fast and gentle drying of garments. No manipulation or vandalism possible as the operations panel is covered when the doors are closed!

1.  Very simple weekly timer with a 2 hour interval operation in a lockable case.

2.  Efficient air control with rotary valves.

3.  Drying arms for gloves.

 Reliable odour elimination and air purification using ionisation (optional available)

 A normal plug socket for the electric supply is all you need (230V/50-60 Hz).

 The boots are dried with forced heated air to remove moisture quickly, safer and completely. Independent regulation of drying temperature. Thermo guard in the fan and heater: an overheating is impossible.

drying cabinets

for your work protection equipment

technology

- Fast drying and warming from intensive warm air blowing from 385 to 770 m³/hour. Dual thermo guard.
- The units can be upgraded in our works to a total of 770 m³/h.
- The doors and hinges have an extremely stable performance: welded and soldered hinges made of sheet steel. Folded steel. Corners riveted x4. Vertical strengthening channels on the doors. Rubber pads on each corner for quiet closing of doors.
- A high quality chrome steel heating coil with 2.2 kW provides a constant heating performance: 40,000 working hours guaranteed! Optionally with an on/off switch to save energy.

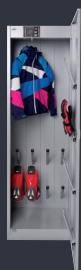

Part No. Model
T 11033
8 garments on integrated clothes hangers + 8 pairs of boots and gloves

Dimension (W x H x D)
Output
120 x 198 x 71 cm
2,15 kW

Part No. Model
T 11030
8 garments + 8 pairs of boots & gloves

Dimension (W x H x D)
Output
120 x 198 x 71 cm
2,15 kW

Part No. Model
T 11064
Ionisation device with integrated air quality sensor

Part No. Model
T 11025
4 garments + 4 pairs of boots & gloves

Dimension (W x H x D)
Output
60 x 198 x 71 cm
2,15 kW

Part No. Model
T 11025KB
4 garments + 4 pairs of boots & gloves with integrated clothes hangers

Dimension (W x H x D)
Output
60 x 198 x 71 cm
2,15 kW

Part No. Model
T 11026
8 pairs of boots & gloves

Dimension (W x H x D)
Output
60 x 198 x 71 cm
2,15 kW

Part No. Model
T 11065
Additional fan

Other drying systems:

speed-dry universal dryer

speed-dry fan powered boot dryer

eco-dry electric boot dryer

thermo-dry warm water boot dryer

special uses fan power
