

dryingCabinet speedDry type TS8 Standard Gen4

Drying cabinet 8 sets

Drying cabinet in the speedDry series, made of hot galvanised sheet metal, powder-coated, double-wing doors with magnetic fastener with interlock function. Aluminium dryer arms for shoes and gloves (oval aluminium) with unique Steurer speedDry blow-out end caps, clothes rail for hanging up clothes hangers. Powerful ebm-papst blower with approx. 385 m³ air displacement per hour, high-quality stainless steel heating coil to heat the air (overtemperature protection), with optimum ionisation unit to neutralise odours and remove pathogens from the air in an ozone-free manner.

The new xControl control unit with colour display and industry-standard plastic foil keyboard provides the operator with a simple and intuitive as well as multi-lingual user interface for managing the timing and power consumption of the system. The timers have variable settings and a countdown time can also be enabled (countdown function). As an option, the xControl controller is also able to activate a definable drying cycle, which it does using an external input (EIB/house controller etc.).

PRODUCT INFO:

W / H / D	120 198 76 cm
Connected load	2150 W
Color	RAL 7016 anthracite grey
Shoes	8 pairs
Gloves	8 pairs
Jacket / pants	8 sets
Connection ratings	230 V AC 50 Hz
Articel-Nr.	tr-spe-50067
